

About ICMPD

The International Centre for Migration Policy Development (ICMPD) is an international organisation with 18 Member States and more than 340 staff members. Active in more than 90 countries worldwide, it takes a regional approach in its work to create efficient cooperation and partnerships along migration routes. Priority regions include Africa, Central and South Asia, Europe and the Middle East. Its three-pillar approach to migration management – structurally linking research, migration dialogues and capacity building – contributes to better migration policy development worldwide. The Vienna-based organisation has a mission in Brussels, a regional office in Malta and project offices in several countries. ICMPD receives funding from its Member States, the European Commission, the UN and other multilateral institutions, as well as bilateral donors. Founded in 1993, ICMPD holds UN observer status and cooperates with more than 570 partners including EU institutions and UN agencies.

Migration is one of the most important political issues in current public debates and ICMPD strives to be an objective and fair-minded companion in this context. It aims to shape a nuanced discourse and facilitate dialogue between all relevant stakeholders. ICMPD bases its work on knowledge and solid evidence and has vast experience in bridging the gap between theory and practice. Thus, ICMPD is able to provide policymakers and politicians with the necessary groundwork to make critical decisions. Furthermore, ICMPD is present on the ground with capacity building activities in various areas of migration management.

ICMPD strives for comprehensive, sustainable and future-oriented migration governance and applies a three-pronged approach: capacity building, migration dialogues, and research. These three elements feed into each other and together they represent the "DNA" of ICMPD. Drawing on the three-pronged approach, ICMPD supports its Member States and partners by sharing with them its in-house knowledge and profound expertise in all fields of migration management. As the facilitator of several migration dialogues, ICMPD is in a unique position in terms of its regional networks, knowledge and geographic and thematic outreach.

ABOUT EUROMED MIGRATION V

EUROMED Migration V (EMM5) is a programme funded by the European Union (EU) and implemented by the International Centre for Migration Policy Development (ICMPD). It supports EU Member States and the European Neighbourhood Instrument Southern Partner Countries (ENI SPCs) in establishing a comprehensive, constructive and operational dialogue and co-operation framework on migration, with a particular focus on reinforcing instruments and capacities to develop and implement evidence-based migration policies.

EMM5 aims to foster rights-based migration governance systems by consolidating and expanding cooperation between European Neighbourhood Instrument South Partner Countries and European Union Member States (EU MS) as well as among ENI SPCs themselves. It sets out to do so through three distinct yet complementary components, aligned and integrated to enhance and reinforce one another, namely: Dialogue, Knowledge and Communications.

Together, these three components contribute to reinforcing the coherence, operational scope and resilience of cooperation on migration in the Euro-Mediterranean region as well as to enlarge the common base of national governance systems. As a result, through exchange and enhanced coordination, the potential for conflictual and/or inconsistent policy-making will be significantly reduced. Importantly, the capacity of ENI SPCs and EU MS to manage and address migration challenges, and the intersectionality between their roles as places of origin, transit and destination of migration will be enhanced. This will bring about an increased capacity to reap the benefits and social outcomes of people's mobility throughout the region.
