We can’t stop here!

- TRM is a model that can be “exported” to other regions of the world
- New emerging forms of trafficking require reinforcement of the needs-tailored approach, especially labour exploitation, expansion of partnerships
- **Regular update and further development** of the TRM SOPs and contact list to support the **information exchange and cooperation**
- Regular multilateral and bilateral meetings both at **operational and policy** level
- Conclusion of MoUs/ bilateral and multilateral agreements
- Victims voices and perspectives to be further taken into consideration in the future development of additional tools
Thank you very much for your attention!
