Component 1

Component 1 focuses on supporting the Jordanian Government’s capacity to engage with Jordanian expatriates. In Component 1, the project works with the Ministry of Foreign Affairs and Expatriates, the Ministry of Labour, Jordanian expatriates and their associations.

Component 1 activities include:
- Developing an Expatriate Profile featuring information on Jordanian expatriates’ demographics, including socio-economic profile, skills level and strengthening the government’s capacity to collect data and information on expatriates.
- Developing expatriate outreach through development of web based tools and guidance documents to better reach, communicate and inform expatriates on government support services.
- Improve services to expatriates through development of a training of trainers programme on outreach and services provision to expatriates, key government staff, the organisation a model outreach event and study visits to EU Member States.
- Develop a new engagement strategy and support government capacity to develop, implement and monitor their expatriates’ engagement strategy and action plan.

Component 2

Component 2 offers support in the area of enhancing the Jordanian Government’s capacity to address trafficking in human beings. In Component 2, the project works with the Ministry of Interior (Counter Trafficking Unit, Public Security Directorate), Ministry of Labour, Ministry of Justice, Ministry of Social Development and civil society organisations. Component 2 also works closely with the inclusion of Anti-Trafficking Working Committee, Jordan’s national coordination body for trafficking in human beings.

Component 2 activities include:
- Enhancing the capacities of law enforcement to combat and detect cases of trafficking in human beings through development of a training curriculum and indicators of trafficking for the Ministry of Labour capacity building training and a study visit to the United Kingdom.
- Supporting the process to develop a new anti-trafficking strategy action plan through an assessment of the previous strategy and drafting of a new strategy through multi-stakeholder consultation.
- Building the capacities of border enforcement agencies in the anti-trafficking and border management facilitates through information seminars and capacity building workshops of victim identification and a study visit to Bulgaria.
- Supporting the implementation of the National Mechanism (NPM) for trafficking victims through development of Standard Operating Procedures for the identification and referral of victims of trafficking in Jordan and capacity building support to Jordanian ministries to implement the SOPs.

The Member States of the European Union have decided to link their know-how, resources and best practice. Together, they have built up a model of mutually agreeable national anti-trafficking development within maintaining cultural diversity, tolerance and individual freedom.

The EU is committed to sharing its achievements and its values with countries and peoples beyond its borders.

First main activities:
- Ms. Sarah Schlegel,
  Head of Office - KMPD in Jordan / Overall Project Coordinator
  JEMPS Jordan - Responsible for Component 1 (Expertise Engagement) of JEMPS
  Tel: +962 77 507731
  Email: Sarah.Schlegel@kmudp.org

- Ms. Malika Guerreux-Graham,
  Senior Project Manager, Responsible for Component 2 (Trafficking in Human Beings) of JEMPS
  Tel: +382 72 27901
  Email: Malika.Guerreux-Graham@kmudp.org

JUMP2 is a technical assistance project with the overall aim to support the implementation of the Mobility Partnership (MP) between the European Union and Jordan. For a period of 33 months, the project will be implemented in the South Governorates and supported by the Jordanian Ministry of Interior, the Ministry of Labour, the Ministry of Social Development, and the Ministry of Municipal Affairs.

**What?**

JUMP2 is a technical assistance project with the overall aim to support the implementation of the Mobility Partnership (MP) between the European Union and Jordan. For a period of 33 months, the project will be implemented in the South Governorates and supported by the Jordanian Ministry of Interior, the Ministry of Labour, the Ministry of Social Development, and the Ministry of Municipal Affairs.

**Where?**

JUMP2 is implemented with the support of 6 participating European Member States: Bulgaria, Hungary, Poland, Portugal and Romania.

**How?**

**Component 1**

Component 1 focuses on supporting the Jordanian Government’s capacity to engage with Jordanian expatriates. In Component 1, the project primarily works with the Ministry of Interior’s Immigration and Expatriates, the Ministries of Labour and Justice, and the Ministry of Municipal Affairs to improve access to services for Jordanian citizens. Component 1 activities include:

- Developing an Expatriate Profile featuring information on Jordanian expatriates to be used in the geographic distribution, social dynamics, skills, and legal status to support government policies.
- Strengthening the expatriate outreach through training workshops to increase awareness of the rights and responsibilities of Jordanian expatriates and improve the service provided.

**Component 2**

Component 2 offers support in the area of enhancing the Jordanian Government’s capacity to address trafficking in human beings. In Component 2, the project works with the Jordanian Ministry of Interior (CTR), the National Anti-Trafficking Committee, the Ministry of Labour, the Ministry of Justice, and the Ministry of Social Development and civil society organizations. Component 2 activities include:

- Enhancing the capacities of law enforcement officers to combat and detect cases of trafficking in human beings through development of a training curriculum and indicators of training for the Ministry of Labour, capacity building of the National Anti-Trafficking Committee, and training officers on the rights and responsibilities of Jordanian expatriates.
- Developing a new anti-trafficking strategy and action plan, with an emphasis on increasing the awareness of the risk of trafficking and supporting the implementation of Jordan’s National Strategy against Trafficking in Human Beings.
- Building the capacities of labor enforcement agencies in the labor and social protection sectors to handle cases of forced labor and monitor the implementation of the Jordanian Anti-Trafficking Law.
- Supporting the implementation of the National Protection Mechanism (NPM) for trafficking victims through development of tools and guidelines to support the implementation of the Jordanian Anti-Trafficking Law.

**Why?**

- The European Union and the Hashemite Kingdom of Jordan signed the Mobility Partnership (MP) in October 2014.
- Following the signature of the MP, the European Commission’s Directorate-General for Development and Cooperation estimated the amount of 235,000 Euros for a project to support implementation of the MP with Jordan. Together with the Jordanian partners, JUMP2 implemented the JUMP2 project within the new thematic components:
  - Expatriate Services: improving services for Jordanian expatriates and citizens in Jordan.
  - Tourism: promoting tourism and investment in Jordan.
  - Shared Mobility: promoting sustainable mobility solutions in Jordan.

In line with the partnership approach, JUMP2 benefits from close coordination and peer-learning exchanges between the Jordanian authorities and states from the participating European Member States.
